**REDACTED**

Here is my Victim Impact Statement:

My name is Naor Yehudaey, 38 years old, father to 2 little charming kids.

I lost 1.1 BTC in the scam. Those days I used all my savings and a small bank loan to buy that amount of Bitcoin. This money was meant to be used for house renovation which was eventually delayed by 2 years.

After I realized I lost that money, I was depressed and felt ashamed. I spent nights and days trying to communicate with Jeremy Spence and his relatives, in order to get my money or even a portion of it back. I couldn't look into my wife's eyes. I felt that I lost money for my kids.

Since then I found some ways to overcome the shame. What's left is the hope that I learned a lesson from that story.

Please let me know that you got this email and that nothing is missing.

Thanks,  
Naor Yehudaey
